I hereby certify that I have read and examined this application and know the same to be true and correct. I have read and understand the codes and all provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other federal, state or local law regulating construction or the performance of construction. I certify that I am the design engineer of record and the structure, and all of the pilings, walls or columns used for structural support have been designed and anchored so as to resist flotation, collapse and lateral movement due to the effects of wind and water loads acting simultaneously on the building components. Water loads include wave action, drag forces, and debris impact forces, in accordance with all city codes and ordinances. Signatures below constitute the agreement to hold the City of La Marque staff or representative harmless for any omissions or deficiency created by the above construction.

An Asbestos survey has been conducted in accordance with the Texas Asbestos Health Production Rules (TAHPR) and the National Emissions standards for Hazardous Air Pollutants (NESHAP) for the areas being demolished

[] yes [] No*

* If the answer is No, then as the owner/operator of the renovation/demolition site, I understand that it is my responsibility to have this asbestos survey conducted in accordance with Texas Asbestos Health Protection Rules (TAHPR) and the National Emission Standards for Hazardous Air Pollutants (NESHAP) prior to a renovation/demolition permit being issued by the City of La Marque.

1. ACKNOWLEDGEMENTS

Please read and initial below:

_____ It is the owner's responsibility to ensure that the project conforms to the Texas Accessibility Standards and is certified prior to start of any construction project over \$50,000. The City of La Marque does not certify that projects submitted for permits comply with the Architectural Barriers Act, Article 9102, and Texas Civil Statutes.

_____ I hereby certify that I have read and examined this application and know the same to be true and correct.

_____ I have read and understand the codes and all provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not.

_____ The granting of a permit does not presume to give authority to violate or cancel the provisions of any other federal, state or local law regulating construction or the performance of construction.

_____ Signatures below constitute the agreement to hold the City of La Marque staff or representative harmless for any omissions or deficiency created by the above construction.

_____ I will not allow the subject property to be occupied until the City of La Marque has approved and completed all final inspections and issued a Certificate of Occupancy.

_____ Additional federal, state, or local permits may be required.

_____ **WARNING:** The flood hazard boundary maps and other flood data used by the City of La Marque Floodplain Administrator in evaluating flood hazards to proposed developments are considered reasonable and accurate for regulatory purposes and are based on the best available scientific and engineering data. On rare occasions greater floods can and will occur and flood heights may increase by man-made or natural causes. Issuance of an exemption certificate does not imply that developments outside the identified area of special flood hazards will be free from flooding or flood damage. Issuance of an exemption certificate shall not create liability on the part of the City of La Marque, the City of La Marque's Floodplain Administrator or any officer or employee of the City of La Marque, in the event flooding or flood damage does occur.

_____ I Certify that I have checked the **zoning** of my property before the purchase of my permit.

BY SIGNING BELOW, I, _____, THE HOME OWNER OF THE PROPERTY LOCATED AT _____, WILL PERFORM ALL WORK PERMITTED.

PERMIT APPLICATION

2 / 6 / 1 9

Email Submission: Permits@CityOfLaMarque.org

WE WILL NEED THE FOLLOWING BEFORE ISSUING A PERMIT. (All items may not be applicable)

Refer to the City of La Marque Design Criteria Manual, City of La Marque Code of Ordinance at ds.cityoflamarque.org and the 2012 IBC for the most accurate and up to date requirements.

1. **Contractor registration** for all contractors must be listed and registered with the City of La Marque, Texas
2. **Construction documents** two copies of complete set of construction documents are required for plan review. Construction documents must have original seal, signature and date. No copies will be accepted. Construction documents must be submitted along with a completed permit application form.
3. **Plot plan** stamped by an engineer, or surveyor drawn to a scale of 1" = 20'. Site plans must show lot dimension, footprint of building and distance from building to property lines, platted building lines, driveways and all easements, and the addresses and legal description of the lot.
Property Line requirements are as follows:
 - Five (5) feet from each side of the property line.
 - Ten (10) feet from the back of the property line
 - Ten (10) feet from each side on corner lots.
 - Twenty (20) feet from front property line.
4. **Floor plans** drawn to scale of 1/4"=1'. Floor plans must show all dimensions, room names, size and types of windows, and doors, cabinets and fixtures and ceiling height.
5. **Exterior elevation plans** drawn to scale of 1/4"=1'. Exterior elevation plans must show exterior materials windows and doors, roof slopes, chimneys, and overhangs.
6. **Foundation plans** (must be sealed by a State of Texas Licensed Engineer) drawn to scale of 1/4"=1'. Foundation plans must show all dimensions, location and spacing of the beams, location of post-tension cables (if applicable), location and sizes of rebar (if applicable), concrete specifications, slab thickness, beam sizes and details, post tension cable details (if applicable), other notes and requirements by the Engineer, and the address and legal description of the lot.
7. **Engineer foundation design letter** must include a statement that the foundation has been designed specifically for soil conditions of listed lot and that the design is in accordance with the building code, must be sealed by the State of Texas Licensed Engineer that designed the foundation plans, and must show the address and legal description of the lot.
9. **Foundation detail** refer to the City of La Marque Design Criteria and City of La Marque Code of Ordinance at ds.cityoflamarque.org for the most accurate and up to date requirements.

All building foundations must be inspected, and inspection tag must be present on the job site during any pour. Any violations will result in a stop work order being issued and the project building permit WILL BE REVOKED.

10. **Masonry or wood details**, all masonry and wood detail will have to be built to the International Residential Code details, and sealed by a State of Texas Licensed Engineer when applicable. All structure must be engineered to insure compliance with inland / wind zone requirements of 130MPH with a "c" exposure as per Section 17-24 City of La Marque Ordinance.
11. **Hurricane strapping** and clipping is required on all new construction.
12. **Framing details** including all types, sizes and spans of lumber used during construction. 5/8 inch decking must be used on all roofs, (or ASB decking equal to five eighths (5/8) inch may be used. Staples are not allowed to be used as fasteners for siding, roofing, decking, roof felt or for any type of roof shingles. Draft stopping (fire barriers) is required.
13. **Electrical plans** (may be combined with floor plans) drawn to a scale of 1/4"=1'. Electrical Plans must show location of receptacles and other outlets, exhaust fans, smoke detectors, light fixtures, service equipment and panels. Hardwired smoke detectors must be placed in hallways leading to bedrooms, and in each bedroom.
14. **Plumbing plans** (may be combined with floor plans) drawn to a scale of 1/4"=1'. Plumbing plans must show location of fixtures, water heaters and gas outlets. Water heater must be up to IPC03 code including *Temperature and pressure relief valves* draining to the outside.
15. **Certified Energy Compliance Report.**
16. **Elevation Certificate.** (final grade elevation will have to be on final before Certificate of Occupancy is issued)
 - a) All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above one foot above the base flood elevation or the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least two feet if no depth number is specified).
17. **Parking plan**
18. **Drainage detail plan** required for any fill dirt, civil, new construction permits.
19. **New homes** require copy of application for water / sewer. The location of the electric meter and the gas meter must be approved by the utility entity in the jurisdiction.
20. **Omega Bay** all construction in Omega bay must be approved by the home owners association and a letter of approval must be submitted with application before plan review is commenced
21. **Structures in the flood plain** must sign a non-conversion agreement where applicable.

INSPECTIONS

The City of La Marque Inspections Office performs a combination of inspections each visit to the job site. The inspections shall be done in the order as followed:

1. Temporary Electrical Service Pole (T-Pole)
2. Ground Plumbing, Water Line and Sewer
3. Slab / Foundation
4. All rough-Ins (It is preferred to do all inspections on the same day at the same time)
 - a. Framing
 - b. Electrical Rough-In
 - c. Plumbing Top-Out (internal gas lines must be holding pressure as well)
 - d. Mechanical

These inspections must be done prior to installation of insulation and sheetrock.

5. Meter Loop (Electrical Service transfer from temporary to permanent)
6. All Finals (It is preferred to do all inspections on the same day at the same time)
 - a. Building
 - b. Electrical
 - c. Plumbing (yard line must be holding pressure)
 - d. Mechanical

Also concrete or pavement on driveway must be complete, and address must be permanently installed on the building. After all finals have passed, you will need to call in for a Certificate of Occupancy inspection. Once this certificate is issued, you will be allowed to occupy the building. Gas and/or water service may be held until all final inspections have been completed and passed.

Inspections will only be done and recorded if the permit numbers and addresses are given at the same time that inspection is requested by calling the Permit Office at 409-938-9204.

* Temporary addresses of property must be visible from the street.
